SUMMARY

Fourth-semester Computer Engineering student specializing in Artificial Intelligence, Machine Learning, Computer Vision and Deep Learning. Focused on building AI-powered applications, automation workflows and intelligent systems.

EDUCATION

LDRP Institute of Technology and Research

2024 – 2028

Bachelor of Engineering - Computer Engineering Department

CPI: 8.70

Gandhinagar, Gujarat

EXPERIENCE

AI/ML Intern - The Special Character

Starting: Dec 2025 - Feb 2026 (on-site)

Working on live AI projects involving machine learning model development and automation workflows for real-world applications.

IEEE EMBS Student Internship Program 2025

Duration: 15 June - 15 July (Remote)

Developed an AI/ML prototype titled *Schizophrenia Detection and Prediction Model* using mental-health datasets and predictive modeling.

PROJECTS

1. Sign Language Interpreter (Computer Vision Project)

Tech Stack: MediaPipe, TensorFlow, OpenCV, Python

Real-time sign language recognition using MediaPipe hand tracking and TensorFlow classification integrated with OpenCV.

2. Smart Parking Management System (AI Detection System)

Tech Stack: YOLO, Streamlit, OpenCV, Python

AI parking detection system using YOLO object detection with occupancy visualization through a Streamlit dashboard.

MYOPET – Interactive S.T.E.A.M. Learning Robot (IEEE MYOSA 4.0 Finalist)

[GitHub Repository](#)

Developed an interactive learning robot for children featuring gesture, motion, color, and temperature-based activities with real-time audio-visual feedback; led project ideation and proposal selection for IEEE MYOSA 4.0.

4. AI Projects

- **Resume to JSON Script Generator (Deployed)** - Converts resumes into structured JSON and generates professional video scripts.
- **Prompt to Clone Generator** - Automation workflow using n8n for AI prompt replication.
- **Prompt to Image Generator** - Prompt-based AI image generation using generative AI APIs.

TECHNICAL SKILLS

Programming: Python, C, C++, HTML, CSS

AI / ML: TensorFlow, PyTorch, OpenCV, MediaPipe, YOLO, Computer Vision

Frameworks & Tools: Streamlit, Flask, n8n, Google Colab, Anaconda, VS Code

Other Tools: Canva, MS PowerPoint, MS Word, LaTeX, Flow

ACHIEVEMENTS

Impacathon Hackathon 2025-26 - **4th Runner Up**

Myosa 4.0 International Competition - **Finalist** (New Delhi, 2026)

NBT Finalist - **IEEE APSCON 2026**

LEADERSHIP

IEEE R10 (Asia-Pacific Region) - **ACEI Entrepreneurship Ambassador 2025**

IEEE YESIST12 Ambassador - 2026

Member - IEEE Student Branch, KSV, Gujarat Section

Documentation and Report Committee Member - IEEE KSV-SB

CERTIFICATIONS

Microsoft Azure AI Essentials - Workloads and Machine Learning on Azure

Career Essentials in Generative AI - Microsoft & LinkedIn
